RE: Technical Memoranda (TM) 6, Model Descriptions; Operable Unit 2

Dear Mr. Schassburger,

The Colorado Department of Health, Hazardous Materials and Waste Management Division (the Division), has reviewed the above referenced document and comment responses submitted by DOE and prime operating contractor, EG&G. Based on the comment responses and the fact that most of the modelling in question is already complete, we hereby approve TM 6. However, we have had technical disagreements from the beginning of our review of this TM with DOE regarding the models chosen and how they are being applied that still persist. Because of this, our approval of this TM will not affect our review and approval of the modelling portions of the Phase II RFI/RI Report. We strongly encourage DOE and EG&G to justify and explain model applications thoroughly in the RFI/RI Report.

If you have any questions regarding these matters, please call Joe Schieffelin of my staff at 692-3356.

Sincerely,

Gary W. Baughman
